

Middle East Port Advisory

Date / Time: 05/03/2026 - 10:00 UAE LT

Regional Overview						
Operational situation appears largely unchanged overnight, with no new terminal attacks or port closures. Strait of Hormuz traffic remains severely disrupted, and shipping companies continue to avoid transits through the Strait of Hormuz amid elevated security risks.						
Airspace remains closed in most Gulf countries, and where it is open/partially open, flight cancellations severely limit the possibility of crew changes.
